Very good experience with Priority Appliance today. Second time we've used them. Stephen C. provided advance notice of appointment, was on time, was courteous, explained problem and fixed our dishwasher in reasonable time. Will definitely recommend to anyone needing appliance service.

Top notch. When searching for an authorized service agent for Frigidaire, Priority Appliance came up as a match only because servicing Frigidaire was on their website but are not an authorized service agent. Regardless, after speaking to Paul, he was very helpful and provided me company names of authorized service agents and their contact information. My situation was complicated. The appliance sustained damage from recent home renovation and there is a manufacturer's recall issued. Not only did he understand my situation and patiently listened to the details, he asked if the time spent speaking to him on my cell would incur charges and if he could call me on a landline. Luckily the duration of my call doesn't impact my rate plan but thanked Paul for his consideration. Now that's customer service!

Alex Tripunov from Priority recently repaired our 5Yr old LG Refrigerator. Several replacement parts were required so they were ordered and installed over the course of a couple of visits. It was subsequently determined that the freezer fan housing was also severely damaged (my fault because I didn't properly follow Alex's earlier instructions to let it fully thaw). It subsequently became apparent that LG no longer stocks the replacement freezer fan. Given the sunk costs in earlier repairs, Alex then set about rebuilding the damaged fan housing in my workshop with some shop-made repair parts and some hot-gluing, a bit of patience, and considerable innovation. The shop-made part works perfectly! I have found Alex to be an extremely competent, knowledgeable, resourceful and efficient technician. He is also very pleasant and considerate. Now that I have experienced the efficiency and quality of service that Priority provides, I will call them for any and all of my future appliance servicing needs.

I have been using the services of Priority Appliances since they spit off from the retailer Midland Appliances some years ago.

I have always found their service to be first rate. Our most recent problem was our venerable SubZero refrigerator that we found deficient on our return from a three week vacation. Priority staff scheduled service for the afternoon and Mr. Ramin arrived promptly at 2:00 pm. Within an hour, he had identified the problem as a faulty thermostat, cleaned the condenser, and installed a new thermostat, restoring our refrigerator as if new. He also made suggestions for future installation of an insulation kit.

We were most impressed with the skill and pleasant personality of Mr. Ramin. I would not hesitate to recommend Priority for any appliance repair.

NO WASHING LEFT BEHIND, THANKS TO THE SAMSUNG WW8500 ADDWASH

 SEPTEMBER 4, 2015 BY [PRIORITY APPLIANCE](#)

Samsung Electronics announced the launch of the Samsung WW8500 AddWash, a new washing machine that makes it easy to add a piece of forgotten laundry to the wash in mid-cycle. According to the research conducted by Samsung, about 90% of consumers in Europe say that they wanted to put more clothes in the washing machine after a wash cycle had started.

GE'S COMING ULTRA-EFFICIENT ULTRA-SONIC DRYER

 SEPTEMBER 3, 2015 BY [PRIORITY APPLIANCE](#)

Interesting work in low-energy ultra-sonic drying at Oakridge National Laboratories, may result, finally, in a low energy appliance-based drying option
