

TELUS PureFibre™ is coming.

Your building has been chosen by TELUS to be upgraded to the new PureFibre network as part of their \$1 billion investment in the Vancouver area.

The next step is to bring a dedicated fibre connection to each individual unit, this will allow the fibre services to be used at a later date. TELUS technicians will be in your building on the below dates to complete this project. **The in-suite wiring portion will take place on July 31st- Aug 7 excluding Aug 6th.** Technicians will only need access to garage. If you will not be available on the days of in-suite wiring please contact your dedicated technician.

Monday July 31st – Monday Aug 14th
10:00 am - 6:00 pm

Dedicated Technician:

Daniel Samuels
