Subject: Landscaping Walk-through scheduled for Thursday, May 15th

Dear Owner(s),

Please be aware that on Thursday, May 15th the Landscaping Committee and Kevin Slack from Vista Landscaping Services will be doing a walk-through of all common and limited property in our development. The Walk-through will begin at 9:30 AM and will continue for approximately 2 hours.

We will be entering yards and ensuring breezeways are clean and free from any objects other than approved deck boxes. Cleanliness of our development is a priority.

The purpose of this walk-through is to ensure our property is maintained at the highest level possible and that the financial cost we share to do this is validated.

We are blessed to have acres of beautiful trees, shrubs, flowers and grass and the maintenance and replenishing of dying vegetation is a priority for this Council in order to sustain nature at its best.

We are privileged to have many Homeowners who have personally invested in their yards and as we walk through our development this is very obvious to see and much appreciated.

We will be noting all new planting that has occurred and any to be planted very soon. Areas will be noted for planting in our present fiscal year budget.

As a Council we want to ensure that Wills Creek continues to be the most desirable place to live in South Surrey.

Thank you for supporting us in making this happen.

Warm regards,
Wills Creek Strata Council
